
On March 17, 2007, eight (8) development-oriented organizations in Runruno, Quezon held a Mass Induction Ceremony with the Governor of Nueva Vizcaya as Guest of Honor and Inducting Officer.

SPEECH OF GOVERNOR LUISA LOREN “BANTI” CUARESMA AS A KEYNOTE SPEAKER OF THE INDUCTION PROGRAM OF MTL PHIL. INC - RUNRUNO LIVELIHOOD FOUNDATION LAST MARCH 17, 2007

“The very industrious Brgy. Captain Dodoy Rafael, almost everyday he came to my office to follow –up all the request for the development of this barangay and it seems he like a students attending his class. I appreciate his patience and industry as a public servant. He gave so much attention with the development of Runruno particularly for the good of his constituents. Mr. Mendoza the Executive Director of RLF, the President of the RLF, Atty Santos and Atty Soriano, to all the officers and members and different organizations... Good morning!

I observed that most who are here and members of Runruno Livelihood Foundation are women. We are celebrating WOMEN’S MONTH this March.

When I came here after the typhoon PAENG, I saw the great effect of the calamity to the community thus the Provincial government gave emphasized on your needs here to recover again and I was so glad to see that now, Runruno recovered after that devastating typhoon that visited us.

I am so happy to hear all the testimonies because the company MTL and RLF have great help to the community of Runruno. There are so many community development projects that the

company gave to the community. So while the company is still here grab the opportunity to get all the projects they are giving you like skills training and livelihood projects. I cited to you the case of the project (Casecanan dam project) at Alfonso Castaneda wherein the company gave them livelihood projects but when the company finished their contract, the ways of living is back to normal they go on farming they do not give importance and value of the livelihood projects given. Plant more trees for your protection. The company is here to help you and you have to support them also.

In behalf of the Provincial government, I extend our great appreciation to the company MTL PHIL. INC – Runruno Livelihood Foundation for their help to the community of Barangay Runruno. Hoping there are more help that you will extend to the community because what I want is for the goodness of this barangay.

I heard from the testimony of one of the DAY CARE WORKER that the Day Care Building was destroyed during the typhoon. Don't worry we will make a way so that building will be put up with our partnership of our former Congressman Carlos M. Padilla. Take note it Capt, all my promises came true just remind it to me”.

Before the speech of the Governor, several Runruno resident-beneficiaries gave their individual testimonies about the development activities going on in their barangay.

TESTIMONIES

1. ENVIRONMENT

I am Marina Sanchez, one of the officers of Runruno Livelihood Foundation. I am only presenting all the projects of MTL – RLF on environment wherein we have established eleven (11) nurseries to all schools of Quezon and the awarding of the best nursery school implementor was just finished. Quezon National High School of Baresbes won the first, second is Maasin, third is Quezon National High School Annex here at Runruno, fourth is Runruno Elementary School. In partnership with DepEd and TESDA, we have also a nursery at Dipilipig, in front of Fundamental Baptist Church and in front of Mr. Rudy Andrada for the “Adopt a Mountain Project” having an area of ten (10) hectares with twelve (12) identified beneficiaries.

You can also make a request of the projects you want or you can suggest for the good of our projects so that even the company is not here there is something left to us and for our children.

SALAMAT PO!!!

2. HEALTH AND NUTRITION

I am Caridad Bogue, Barangay Nutrition Scholar (BNS) and one of the volunteer worker of Runruno Livelihood Foundation. I present to you the projects of MTL PHIL. INC. on Health and Nutrition Program. A feeding to all Grades 1 and 2 and day care, a total of 414 children throughout the barangay is conducted weekly from Sitio Dumaliguia, Centro, Cabinuangan, Busat and Atan.

The company has provided also a free doctor and nurse. The doctor is here every Friday and our nurse is full time here. After the typhoon PAENG, the company through the Runruno Livelihood Foundation has conducted a series of medical mission headed by the RLF President, DRA. MARIA NANETTE MENDOZA. We observed that after the typhoon “PAENG” there is no outbreak of diseases. “Sila po ang nakatutok dito sa amin”

A fumigation was also conducted after typhoon PAENG to eradicate the dengue and malaria mosquitos.

The company also provided medical equipments such as nebulizer, portable oxygen tank and medical first aid kit to school at Busat Elem. School and QNHS Annex.

A Botica sa Barangay is also given wherein we can buy medicines at price the same with the price at Solano.

3. EMPLOYMENT

I am Hilda Bugarin of Malilibeg, Runruno, Quezon, Nueva Vizcaya. My husband is one of the 253 employees of MTL PHIL. INC and I am one of the volunteer worker of Runruno Livelihood Foudation. This help us a lot on my family like in sending our children to school especially for the financial support because during the time that MTL PHIL. INC AND RLF is not here I am only a plain housewife and my husband has only a work if somebody hired him, there is no fix source of income needed in meeting our daily needs.

I know that it is not only for my family that MTL PHIL. INC AND RLF is helping but also to all who are employed here at MTL PHIL. INC AND RLF. They have also experience a little ease in life.

SALAMAT PO!!!

4. SKILLS AND MANPOWER DEVELOPMENT

I am Jesus Germono, one of the 24 OSY (Out of School Youth) who undergo skills training at TESDA, Tuguegarao, Cagayan. This was finance by MTL-RLF this includes food allowance and our tuition fees. Even our parents went to TESDA, Tuguegararao and they proved that it was true that the company was providing our needs. Without the MTL-RLF we did not acquired our skills we learned in the training.

Out of the 24 OSY (Out of School Youth), we were 4 who finished advanced training on welding, this is G-MAW (Gas Metal Arc Welding) wherein we learned to weld even aluminum and other different kinds of metal. I extend my thanks to MTL- RLF for their support to us specially to the youth.

MARAMING SALAMAT PO !!!

EDUCATION

I am Maria Crisanta Suyo, one of the six teachers of Runruno who is receiving a salary from MTL-RLF, three elementary teachers, one high school teacher and two day care worker. I graduated with honors with the degree Bachelor in Elementary Education but because of the low employment, I grab the opportunity as a day care worker. My salary has a great help to me and to my family as well.

The company distributed also 850 school supplies after the Typhoon PAENG to all schools that includes Runruno Elementary School, Dumaliguia Elementary School, Busat Elementary School, Atan Elementary School, Cabinuangan Elementary School, Quezon National High School- Annex, Day Care Center and Dumaliguia and here at Centro.

The company also constructed a Day Care Center here at Centro but unfortunately it was destroyed last typhoon PAENG so we are temporarily utilizing the building at the side of the Brgy. Hall even the space is not enough. So, if it can be, we request you Ma'am Governor to provide us a building.

That's all. MARAMING SALAMAT PO !!!

5. LIVELIHOOD

I am **Rosie Castillo** of Dumaliguia, Runruno, Quezon, Nueva Vizcaya. I extend my thanks to the MTL PHIL. INC and Runruno Livelihood Foundation for all their unending support to the community, the trainings they conducted and all livelihood projects.

SALAMAT PO!!!

6. VOLUNTEER WORKER

I am **Flora Guillao**, one of the volunteer workers of Runruno Livelihood Foundation. We should support the company for there are lot of help they extended, we can prove it because just after the typhoon PAENG they are the one who helped us first to provide our needs just like the repair of roads that was damaged, it might be until now the roads are not repaired if the company is not here. So those who said that the company has nothing do for the good of the barangay, IT IS NOT TRUE because you are directly benefited from it. What I can say is that while the company is here with us why don't just grab the opportunity to get all that projects they are giving.

So fellow constituents of this barangay , we will extend our support to the company for they are of great help to us.

SALAMAT PO!!!
