METALS EXPLORATION PLC

Typhoon Koppu

Metals Exploration plc (AIM: MTL) (“Metals Exploration” or the “Company”), the natural resources exploration and development company with assets in the Pacific Rim region, through its Philippine’s subsidiary company, FCF Minerals Corporation, advises that Typhoon Koppu, which made landfall on Sunday over Central and Northern Luzon caused no structural damage to its operations at Runruno.

The Company has initiated a clean-up of debris and is undertaking repairs to water damaged roads and infrastructure (such as drainage) after which it is expecting to return to a normal state within two weeks.
