GLOSSARY OF ABBREVIATIONS

| | |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------|
| APROSAIC | Association of settlers for the economic, social and cultural development of the village of Santa Cruz de la India and nearby communities |
| CAPS | Potable Water and Sanitation Committee. |
| MARENA | Ministry of the Environment and Natural Resources |
| MEM | Ministry of Energy and Mines |
| SILAIS | Local system of comprehensive health care |
| NGO | Non-governmental organizations |
| INIFOM | Nicaraguan Institute for Municipal Development |
| INATEC | National Technological Institute |
| ENATREL | National Electricity Transmission Company |
| UNI | University of Engineering |
| UNAN León | National University of León |
| ESIPSA | Professional internal security company S.A. |
| EIA | Environmental Impact Assessment |
| INAFOR | National Forestry Institute |
| DAEM | Explosives and Weapons Directorate |
| ENACAL | Water and Sanitation Company |
| COPTRAMIN | Cooperative of Production and Work of Traditional Artisanal Miners of La India Community |

Condor Gold has developed an internal prevention protocol with our employees, which includes sanitary measurements within the installations and towards the surrounding communities, such as:

- Talks given and written pamphlets on sanitary measurements and COVID-19 prevention were distributed to employees.
- Avoid social gatherings as much as possible and promote social distancing in common areas.
- Use of masks for employees is obligatory in the installations and villages.
- Cleaning outside and inside of vehicles after each use.
- Alcohol spray (small) is distributed for all employees and for desk/computer cleaning.
- Benzalkonium chloride is distributed for all the employees to use in their houses to clean surfaces.
- Disinfectant booth, washing hands, shoe disinfection and thermometers are used at the entrance of the offices.
- Suppliers are met outside the office areas to reduce contact with employees.
- Guidelines for kitchen area and cleaning procedures have been modified and the use of common items has been eliminated.
- Villagers in the social programs and local schools have received talks, as well as sanitary supplies (alcohol, chlorine, etc).

As of June 2020, Condor Gold arranged for employees to work from home and reduced activities on site to avoid spreading of Covid-19 and ensure the safety and health of its employees. This also includes reduction of social interactions in the social programs.

Executive summary

The following report covers the period from July to September 2020, including the environment, social, health and safety and human resources areas.

Condor continues to implement its Environmental and Social Management System, which includes Environment, Community, Health and Safety and Human Resources. However, Condor continued the suspension of activities due to the Covid-19 pandemic in the country. Therefore, minimum activities took place on site in La India.

Environmental work was focused on monitoring of groundwater and surface water level, weather parameters, maintenance of the tree nursery "Oro Verde", maintenance of four reforestation areas located in La India and Real de la Cruz concessions, water sampling within the Participatory Water Monitoring Program, and sampling of water sources in Tatiana (Mestiza) and America projects, support to kinetic ARD study and preparation of Environmental Quarterly Reports of the Second Quarter delivered to government institutions.

The tree nursery "Oro Verde" holds a total of 6,506 plants, which are watered, fertilized and kept clear of weeds and pests as part of its maintenance program. This quarter, a total of 2,327 plants were donated to government institutions for reforestation, environmental activities, and social activities with schools and villagers. Activities in the reforestation areas included cleaning, fertilizing, watering, pest control and installation of signs of the reforestation areas. 15 sites were sampled for water quality monitoring and 300 lb of plastic were donated to Los Pipitos recycling program.

The social area continues to work on maintaining the social license with the communities surrounding the mining projects through various relationship programs and various communication activities with stakeholders.

The company's social investment has focused on its social programs: Contributions and Donations, which addresses issues related to education, health, sports, community mourning, among others; during the period 21 contributions were delivered to people and organizations. Agua Fresca program, which benefits 391 families from the Santa Cruz de la India and Agua Fría communities and 26 property owners; Seniors program, which has 78 members; APROSAIC that works with the neighboring communities; Agua es Vida program, with 153 members; Small businesses program, that has 70 entrepreneurs; Small Mining that benefits 79 artisanal miners organized in 7 groups; Jóvenes en Acción program, that benefits 28 young people; and Happy Childhood program, that benefits 28 children. For this quarter, focus was mainly on supporting community health in COVID-19 prevention activities.

This quarter we carried out activities that allowed us to maintain relationships with the communities, generating trust and ownership with the project, such as coronavirus prevention campaigns embedded through all programs and we carried out prevention actions, starting with ourselves and thus serving as an example to the community.

The company continues to support training and capacity building of its employees, providing financing and scholarships for English courses, and Masters programs .

1. INTRODUCTION

This report is part of Condor Gold’s commitment to continuous improvement and monitoring of the implementation of its Environmental and Social Management System (ESMS) in the areas of Environment, Social and Community Relations and Human Resources; ensuring transparency with its shareholders and relevant stakeholders.

2. OBJECTIVE

To inform stakeholders about the implementation of the Environmental and Social Management System in the areas of Environment, Social and Community Relations, and Human Resources during the third quarter of 2020.

3. ENVIRONMENTAL ACTIVITIES

3.1. ENVIRONMENTAL MONITORING

3.1.1. Baseline studies

Condor Gold continues conducting groundwater level and surface water flow monitoring, as well as gathering weather data from its digital weather station and three rain gauges (La India, Agua Fría and La Mestiza locations).

Surface waterflow

Monitoring of weirs continues. Constant water flow is only present in San Lucas V-notch weir (LIWR001). In July, water level went down from 15.6cm in June to 15.1cm. This is due to a dry period event known as “canicula” which usually lasts 15 days. However, by the end of September, water level increased to 16.2cm. Intermittent water flow was observed in the remaining weirs (Photos 3.1.1.a-e).

Groundwater level monitoring

Weekly monitoring continues; monitoring went from 26 to 22 sites. LIWL063 is no longer monitored due to access denied by the landowner, both located in San Juan farm in America project. Two sites were temporarily not available during the last monitoring in September. LIDC317 was buried and is not functional anymore.

In July, 12 sites showed a decrease in groundwater level between 0.01 to 1.96m. The latter corresponds to drill hole LIDC374, located in La Mestiza. 10 sites showed an increase in groundwater level between 0.04 m and 0.57 m. LIWL046 hand-dug well showed the highest variations during the month.

In August, 9 sites showed a decrease in groundwater level between 0.01 to 2.28m. The latter corresponds to drill hole LIDC379, located in La Mestiza. 11 sites showed an increase in groundwater level between 0.01 m and 1.1 m.

In September, 4 sites showed a decrease in groundwater level between 0.2 to 19.07 m. The latter corresponds to drill hole LIDC379, located in La Mestiza. 12 sites showed an increase in groundwater level between 0.01 m and 15.8 m. The latest being hand-dug well LIWL057, usually in used for cattle. Two sites did not show any variation, LIWL045 and LIDC323.

LIDC291 showed no changes in groundwater level, LIGT250 and LIWL10 continue to be dry.

Weather data

During the quarter, Condor continued registering data from the weather station and three rain gauges located in Agua Fría village, La India village in La India concession and one in Espinito-Mendoza concession.

Based on Condor’s weather station, the following data was registered during this quarter:

| Parameter | July | August | September |
|--------------------------------|--------------------|--------------------|---------------------|
| Rainfall (mm) | 92 | 106.60 | 325.45 |
| Temperature maximum °C | 34.05 | 22.55 | 32.16 |
| Temperature minimum °C | 19.55 | 21.38 | 19.5 |
| Relative humidity maximum (%) | 94.9 | 93.3 | 95 |
| Relative humidity minimum (%) | 34 | 85.7 | 38.1 |
| Predominant wind direction (°) | NNE (11.26 -33.75) | NNE (11.26 -33.75) | ESE (101.26-123.75) |
| Average wind speed (m/s) | 5.86 | 1.44 | 3.75 |

The rain gauges registered the following precipitation:

| | July | August | September |
|-----------------|------|--------|-----------|
| La India (mm) | 83.2 | 107.1 | 352.3 |
| Agua Fría (mm) | 5.16 | 12.54 | 92.6 |
| La Mestiza (mm) | 5.89 | NA* | 29.15 |

*not available

The mining district La India is located in the dry corridor; therefore, average rainfall is 1200 mm/year, with the months of May, September and October as the strongest rain events. Below, a graphic of precipitation per year:

3.2. ENVIRONMENTAL MANAGEMENT

Condor continues implementing its Environmental and Social Management System, in compliance with internal policies and international standards. However, Condor continued the suspension of activities due to the Covid-19 pandemic in the country. Therefore, minimum activities took place on site in La India.

The Environmental Management System continued to be implemented in its most essential activities. These included monitoring of groundwater and surface water level, weather parameters, maintenance of the tree nursery “Oro Verde”, maintenance of four reforestation areas located in Los Rastrojos, Nance Dulce and ALPHA 6, all located in La India concession and Soledad de la Cruz village located in Real de la Cruz concession.

Other activities included sampling of the Participatory Water Monitoring Program in La India project, and sampling of water sources in Tatiana and America projects, support to the kinetic ARD study; and preparation of the Environmental Quarterly Reports of the 2nd quarter. Support to the social team; support to the land acquisition area and evaluation of potential areas for the relocation of community waste dump of La India village; and updating of wells inventory in La India village as part of the baseline database also continued.

3.2.1. Environmental Management System implementation

3.2.1.1. Environmental Awareness

Environmental Awareness activities were reduced and more focused in support to social programs and activities.

Training and follow up on the social program “Medicinal garden”, training for the creation of a school garden in El Tanque village and donation of 100 plants for their reforestation activity in CAPS La India.

Also, a donation of 200 fruit trees to workers was done as part of environmental awareness activities, suspended previously due to the pandemic. And donations to government institutions for their activities and reforestation campaigns, which are further detailed in section 3.2.2.

Photograph 3.2.1.1. a. Plants donation to Agua es Vida

3.2.1.2. Participatory Water Monitoring Program

On 21st July, water sampling was carried out as part of the Participatory Water Monitoring Program, 11 sites were sampled, one site was discarded due to lack of usage of the hand-dug well, which would generate a false result. The potable water well from Agua Fría and a drilled well of the CAPS were sampled. However, sampling took place in a faucet in the Public School since it is not possible to take a sample directly from the well.

Photograph 3.2.1.2.a. Sampling in potable water wells from (1) La India-El Campo, (2) El Carrizal village and (3) El Bordo village

Photograph 3.2.1.2.b. Water sampling of:
(1) Ocotillo stream, (2) San Lucas adit, and (3) Ocotillo stream downstream.

On 22nd July, water sampling was carried out in America and Tatiana projects, 4 sites were sampled, one site was discarded due to lack of water in the well located in America area.

(4)

Photograph 3.2.1.2.c. Water sampling in project areas America and Tatiana (1) Quebrachal stream, (2) El Pescadero stream, (3) LIISA property- JD and (4) LIISA property – MA.

Due to the pandemic situation, sampling was conducted by lab technicians and Condor environmental team along - no government representatives participated during this time. Representatives from the villages waited in their villages to attend during sampling conducted in their wells.

3.2.1.3. Waste management program implementation

Activities related to waste management continued in La India concession and in the company's premises during this quarter.

Recycling and composting activities continued, recycling continues internally as well as with the villages.

In July, a total of 300 lb of plastic were delivered to Los Pipitos recycling program in Esteli, collected from the artisanal miners and cyanide ponds areas. A total of 80 lb/month were generated as general waste and delivered to the community waste dump, 8 lb/month of organic waste were sent to the composting area in ALPHA 6.

3.2.1.4. Soil protection and biodiversity conservation

As part of the remediation and biodiversity conservation efforts, Condor continues with its tree nursery in La India concession. Also, Condor continues implementing the reforestation plans in 5 ha located in Nance Dulce, Soledad de la Cruz and Los Rastrojos villages under agreement with landowners. During this quarter, the reforestation plan included maintenance activities such as watering and fertilizing, weed removal, and replacement of lost trees.

Condor continues its monthly donations to the Arlen Siu Zoo in León implemented since Q4 2019, as part of Condor's commitment to the protection of biodiversity.

3.2.2. Tree Nursery "Oro Verde"

The tree nursery "Oro Verde" provides the trees for all reforestation areas in the Condor concessions. By the end of this quarter, a total of 6506 plants were watered, fertilized and clean from weeds and pests as part of the maintenance program of the tree nursery Oro Verde.

Photograph 3.2.2.a-c. Tree nursery "Oro Verde"

In July, 81 trees were donated to landowners, and 17 trees were donated to villagers; 20 trees were donated to Talpetate elementary school in Talpetate village; 5 medicinal plants were donated to the social program "Medicinal garden".

In August, 362 trees, mostly fruit trees, were donated to workers, landowners, and reforestation activity of social team in area of potable water well CAPS La India.

In September, 1842 plants, between trees and ornamental plants were donated to INAFOR San Isidro for their reforestation campaign (1500 trees), INAFOR Santa Rosa del Peñón (15 trees) for their arboretum, social team for El Talpetate village (222 plants), Las Varas and El Carrizal villages (42 plants) and the social program Agua es Vida (63 plants).

Photograph 3.2.2. d. INAFOR San Isidro donation

3.2.3. Implementation of reforestation plans and activities

3.2.3.1. La India concession – reforestation activities

Maintenance of reforestation areas in Nance Dulce, Los Rastrojos, and within the company's property ALPHA 6, continues. This activity is required to ensure the survival of the trees planted and are part of the environmental commitments of the company in the La India environmental permit.

Maintenance included watering, fertilizing, weed removal and reposition of tree losses. This also included the installation of a sign for the reforestation area of Los Rastrojos.

Photograph 3.2.3.1.a-c . Fruit trees in ALPHA 6 reforestation area

On 24th September, INAFOR El Jicaral conducted a surprise site inspection to the tree nursery "Oro Verde" and one of the reforestation areas in Los Rastrojos. The INAFOR technician was pleased with the care and growth of the trees in both areas.

Photograph 3.2.3.1.d-e. Reforestation area in (d) Los Rastrojos village and (e) in Nance Dulce village.

3.2.3.2. Real de la Cruz concession – reforestation activities

Maintenance of the reforested area in Soledad de la Cruz village continued. This included watering, fertilizing and pest control of the trees. Also, a sign identifying the reforestation area was installed (see Photograph 3.2.3.2.c). Also, 87 were planted due to some losses.

4. SOCIAL ACTIVITIES

4.1. STAKEHOLDER ENGAGEMENT IMPLEMENTATION

4.1.1. Meetings with local stakeholders

During this quarter, the company held more than 14 meetings with the leaders of the social programs to coordinate the activities carried out with the members of the programs and the community in general.

Main programs:

- *Water program*
- *Elderly program*
- *Social contributions*
- *Small business program*
- *APROSAIC*
- *Artisanal Mining*
- *Youth in action*
- *Happy childhood*

4.1.2. Bilateral meetings with local stakeholders

Bilateral meetings

During this period, the company held 20 bilateral meetings, with local organizations in the Area of Direct Influence (ADI) and with NGOs and/or institutions interested in collaborating with social programs.

4.1.3. Communication campaign

During the quarter, we continued executing the communication strategy using various methodologies such as: assemblies, bilateral meetings, union meetings, home visits, Facebook, YouTube, and the Nicaraguan website. With the use of these communication channels we are able to be in direct contact with the population and disseminate our work.

4.2. COMMUNITY RELATIONS PLAN IMPLEMENTATION

La India Gold developed a social investment plan oriented to generate conditions to promote better community relations in the areas of direct and indirect influence of the project; with a focus on water, communication, support for small mining, among other contributions and programs.

During the quarter, US\$35,488 was invested in the following items:

| Social Investment | | | | | |
|--------------------------|---------------|-------------|---------------|------------------|--------------|
| N° | Area | July | August | September | Total |
| 1 | Communication | 3,206 | 3,243 | 3,595 | 10,044 |
| 2 | Water | 2,891 | 2,317 | 2,760 | 7,968 |

| Social Investment | | | | | |
|-------------------|------------------|---------------|--------------|---------------|---------------|
| N ^o | Area | July | August | September | Total |
| 3 | Artisanal Mining | 2,019 | 668 | 661 | 3,348 |
| 4 | APROSAIC | 1,665 | 1,770 | 1,616 | 5,051 |
| 5 | Elderly | 1,310 | 929 | 886 | 3,125 |
| 6 | Small business | 500 | 500 | 500 | 1,500 |
| 7 | Others | 1,587 | 547 | 2,318 | 4,452 |
| Total | | 13,178 | 9,974 | 12,336 | 35,488 |

Table # 1. Social investment III quarter 2020

Contributions and Donations Program

This quarter, the delivery of contributions as classified in table below was: transportation (1), contributions to churches (5), other contributions (7), health (5), infrastructure (3), and sports (2).

People and institutions have indirectly benefited, which represents a broad scope of the program in the communities.

The contributions and donations have been delivered in various areas that we detail below:

| Item | Activity | Beneficiaries | Communities | Month |
|-----------------------------|-----------------------------------------------------------------------------------------------------------|-------------------|------------------------|--------|
| Sport | Delivery of fuel to members of women's soccer team for a trip to the final game outside of the community. | 1 Beneficiarie(s) | La India | July |
| Support for churches | Delivery of economic contribution to El Jicaral church for religious activities. | 1 Beneficiarie(s) | El Jicaral | July |
| Health | Delivery of basic products to delicate state of health applicants. | 1 Beneficiarie(s) | Agua Fría | August |
| | | 1 Beneficiarie(s) | Santa Cruz de la India | August |
| | | 1 Beneficiarie(s) | Santa Cruz de la India | August |
| | | 1 Beneficiarie(s) | Santa Cruz de la India | August |
| Other contributions | Delivery of used tyres to applicant. | 1 Beneficiarie(s) | Santa Cruz de la India | August |
| Support for churches | Delivery of economic contribution to El Jicaral church for religious activities. | Church members | El Jicaral | August |
| | Delivery of economic contribution in celebration of the patron saint festivities of | Church members | Santa Rosa del Peñón | August |

| | | | | |
|-----------------------------|----------------------------------------------------------------------------------|-------------------|------------------------|-----------|
| | Santa Rosa del Peñón, a parish of the same name. | | | |
| Infrastructure | Delivery of 2 manometers to CAPS members. | Users | Santa Cruz de la India | August |
| Infrastructure | Delivery of PVC pipes to CAPS members. | CAPS members | Santa Cruz de la India | September |
| | Delivery of accessories for pipelines repairs to CAPS members. | CAPS members | Santa Cruz de la India | September |
| Support for churches | Loan of awning to evangelical church, religious activity. | Church members | El Bordo | September |
| | Delivery of economic contribution to El Jicaral church for religious activities. | Church members | El Jicaral | September |
| Sport | Delivery of 23 sports uniforms to baseball players in the El Tanque community. | Team members | El Tanque | September |
| Transport | Emergency transfer to Andrés Reyes La India. | 1 Beneficiarie(s) | Andrés Reyes | September |
| Other | Delivery of packages of essential products. | 1 Beneficiarie(s) | Agua Fría | September |
| | | 1 Beneficiarie(s) | Agua Fría | September |
| | | 1 Beneficiarie(s) | El Bordo | September |
| | | 1 Beneficiarie(s) | El Bordo | September |
| | | 1 Beneficiarie(s) | La India | September |
| | Delivery of products to a person in delicate state of health. | 1 Beneficiarie(s) | La India | September |
| | Tent loans for the anniversary celebration of a deceased. | 1 Beneficiarie(s) | El Carrizal | September |
| Health | Delivery of medicines to applicant. | 1 Beneficiarie(s) | La India | September |

Fresh Water Program in the Santa Cruz of La India community

During the 3rd quarter of 2020, the weekly water delivery program continued to be developed. The delivery of two free drums and two subsidized drums per month were maintained, directly benefiting 391 households in the Santa Cruz de la India and Agua Fría communities.

Support was also provided to vulnerable sectors: the elderly, people with disabilities and multi-household families through the free delivery of the four water drums. This support contributes to the reduction of water shortage problems and intestinal diseases, providing residents with quality water for their consumption.

In the Santa Cruz de la India community, 2,515 drums of fresh water were delivered from July to September.

Activities within the water program:

- Beneficiary (s) of the water program received the quarterly magazine “La voz de La India”, which reports the work that the company has done.
- 263 families continued to receive their water drum on a weekly basis.
- 263 families received recommendations on cleaning the bottle and dispenser to prevent virus infections.
- Information was given on preventive measures against the Coronavirus during the delivery of the bottles.

- Dispensers were issued to the newly enrolled beneficiarie (s).
- Two members have joined the program, both seniors.

Fresh Water Program in the Agua Fría community

The fresh water program reaches every home in the Agua Fría community, also permanently benefiting families where there are older adults and people with disabilities.

In the community 1,089 drums of purified water were delivered from July to September 2020.

Activities within the program:

- Beneficiaries of the Agua Fría community program were informed with the delivery of the quarterly magazine “La voz de La India”.
- 128 families receive their water drum weekly
- 128 families received recommendations on cleaning the bottle and dispenser for virus prevention.
- 200 fruit, ornamental and forest plants delivered to beneficiaries (s) of the "Agua Fresca" program in the Agua Fría community.

Picture5: Plant donation

Program - Agua es Vida

The Water is Life program has focused on 3 main axes: water, community health and education. Therefore, different activities have been carried out that contribute to the strengthening of these axes; focusing our commitment on community health due to the current COVID-19

pandemic, helping to improve community health with fumigation activities, prevention messages and correct handling of solid waste by the population of Santa Cruz de la India.

Members within the program: 153

| ACTIVITY | Beneficiarie(s) | Results | date |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|-------------------------------------------------------------------------------------------------------------------------------|-------------|
| Support to CAPS in entering usernames, to keep payments updated. | 245 | ■ Keep CAPS users sorted by zones. | July |
| 3 deposits were placed for the selection of solid waste by the board of directors. | 1085 | ■ They were placed in areas of the baseball field, Barrio Nuevo, and the information office. | July |
| Support to CAPS with the writing of letters and procedures to institutions of the Santa Rosa del Peñón Mayor's Office to find a solution to the water problem. | 1085 | ■ It was possible to send letters requesting support for a solution to a water problem, carrying out gauging of wells. | July |
| Accompaniment to members of CAPS, in conducting a well inspection by ENACAL departmental technician. | 1085 | ■ An on-site visit was carried out by a technician to determine externally the water problem in the wells. | July |
| Solid waste removal in areas of the Santa Cruz de la India community. | 1085 | ■ 11 bags of plastic bottles. ■ 3 glass bags. ■ 1 bag of cans. | July |
| In conjunction with a CAPS member, it was possible to identify damage to the water network and manage a solution with municipal institutions to better serve users. | 245 | ■ The water network repair schedule was carried out in different areas of the community of La India, and completed in August. | July |
| Delivery of personal hygiene packages to people with disabilities in the community of Santa Cruz de la India. | 13 | ■ Grooming packages were delivered to 13 people with disabilities in the community. | July |
| A disinfection day was carried out in the streets and sidewalks of the Santa Cruz de la India community | 1085 | ■ The streets and sidewalks of the Santa Cruz de la India community were fumigated. | July |
| Delivery of a message to 70 families in the La India community, about the right separation of solid waste in deposits located in 12 areas of the community. | 1085 | ■ Delivery of a message to 70 families in the Santa Cruz de la India community. | July |
| Cleaning and maintenance were carried out in the 12 waste metallicbins located in the different areas of the community. | 1085 | ■ Cleaning and cleaning at 12 deposits. | August |

| | | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Reforestation in CAPS wells, located in Agua Fría, 60 plants (ornamental, forest and fruit trees), coordination with members of CAPS and Agua es Vida. | 1085 | <ul style="list-style-type: none"> ■ The sowing of 60 ornamental plants of different species, forest, fruit and ornamental, was achieved. | August |
| Solid waste removal in areas of the Santa Cruz de la India community. | 1085 | <ul style="list-style-type: none"> ■ 25 bags of plastic bottles. ■ 1 sack of glass bottles. | August |
| Delivery of a letter to MINSA Santa Rosa del Peñón, requesting fumigation in the community of Santa Cruz de la India. | 1085 | <ul style="list-style-type: none"> ■ A letter was delivered to the corresponding area. | August |
| Through the house-to-house visit, it was possible to deliver information brochures revealing the main activities carried out by the board of directors in the 1st semester of 2020. The document was accompanied by a personal hygiene package. | 154 | <ul style="list-style-type: none"> ■ 154 brochures were delivered. | August |
| Solid waste removal in areas of the Santa Cruz de la India community. | 1085 | <ul style="list-style-type: none"> ■ 10 bags of plastic bottles. ■ 1 sack of glass bottles. | September |
| Cleaning of weeds in the area of the 12 deposits for collection of solid waste. | 1085 | <ul style="list-style-type: none"> ■ The 12 tanks were cleaned. | September |
| Delivery of messages for the prevention of diseases caused by the mosquito bite through house-to-house visits to members of the program. | 40 | <ul style="list-style-type: none"> ■ 40 families were visited. | September |
| Fumigation was carried out in the community, through the management of the board of directors before MINSA, Santa Rosa del Peñón municipality. | 1085 | <ul style="list-style-type: none"> ■ Fumigation was carried out in the 345 homes. | September |
| Through the activity one day for recycling, the exchange of plastic bottles for ornamental plants and forest trees was carried out, as well as a gift to the participants. | 35 | <ul style="list-style-type: none"> ■ Delivery of 60 ornamental plants and forest trees. ■ It was possible to collect 4 sacks of plastic bottles. ■ Participation of 35 people. | September |

Business Program

The board of directors of the business program with the support of the company, resumed the house-to-house visits to approach the business owners, always taking hygiene and prevention measures due to the pandemic that affects the world, the coronavirus.

As a board of directors, it is important to promote financial education and motivate the business owner to undertake their business. There is currently a time of economic crisis, so they must seek to boost the economy of the town.

During this quarter, members of the community savings program were visited to motivate them to continue saving, and videos were also presented to help them understand the messages. Every month the La India raffle took place, with all the members of the program, who had the opportunity to win and it allowed an space to provide useful information to the business owners.

The 3rd quarter closed with 70 members enrolled in the program.

Youth in Action Program

During the third quarter of 2020, no actions were carried out with the members of the program due to the pandemic and due to work suspension of the social collaborator who runs this program.

Happy Childhood Program

During the third quarter of 2020, no actions were carried out with the members of the program due to the pandemic and due to work suspension of the social collaborator who runs this program.

APROSAIC

APROSAIC has focused its work on cultural initiatives, maintaining relationships with community leaders, local schools and cultural activities. During this quarter, APROSAIC focused on executing activities related to COVID-19 prevention. The activities are detailed below:

✓ **Communities' leaders**

Due to COVID-19, meetings are cancelled, but the social team is contacting leaders by cellphone. In July, 22 food packages were delivered to elderly mothers in Agua Fria. This activity was pending to be executed since May.

✓ **School sanitation**

Following the guidelines given to execute initiatives that contribute to mitigate COVID-19, it was agreed with the members of APROSAIC to carry out activities aimed at this objective, such as sanitizing local schools, since one of the greatest fears of parents for sending their children to schools is the risk of catching COVID-19 due to lack of hygiene conditions.

The objective is to contribute to the education community and create a monthly disinfection campaign in coordination with directors and teachers in 9 educational centers.

✓ **Public hand washing stations**

Among the prevention measures for COVID-19, one of the most recommended and effective is adequate and frequent hand washing. Most of the population of nearby communities suffer from water scarcity and low culture of hand washing.

Condor Gold and APROSAIC installed 5 public hand washing stations at key points of the exits to the main road (NIC-26) by providing a plastic bucket (20 litre capacity), a gallon of liquid soap and a soap dispenser with a capacity of 500 ml, to make it available to the population. Previously, Condor's staff and APROSAIC visited villagers or business owners located near of the selected point to stablish a commitment to take care of the station and provide water for the plastic bucket.

✓ **Reforestation day in El Carrizal and Las Varas schools**

Through a coordination with Environment department, 42 plants were donated to the El Carrizal and Las Varas schools as requested by its principals to reforest both schools. Each teacher was assigned some plants and with their students they had to plant them and take care of them as the plants grew

COPTRAMIN INVOLVEMENT GROUP

✓ **Gifts women members for mother's day**

In July, Coptramin involvement group and Condor Gold team executed the Mother's day activity delayed since May due to COVID-19 situation. The board visited 41 cooperative members who are mothers to deliver a gift.

4.3. IDENTIFICATION OF VULNERABLE FAMILIES

Santa Cruz de la India's Seniors Program

During the 3rd quarter of 2020, the program activities were carried out, taking into account all the hygiene and prevention measures due to the Coronavirus Pandemic, since in Nicaragua the contagion curve has decreased according to medical reports; but as a company, compliance with the hygiene and prevention measures indicated by the WHO are maintained.

During the quarter, 2 advertising campaigns were carried out through Facebook; one to promote the grandparents' medicinal garden and another to promote the care of the grandparents. Both with the objective that the followers appreciate and value our Seniors.

The activities were also focused on health. Visits were made to the sick, food packages were delivered, flyers were provided with information about coronavirus prevention measures, a game was played to exercise the mind and entertain the members of the program.

The medicinal garden projects continue working, taking all hygiene measures, but Piñatas project discontinued their work temporarily.

The third quarter ended with 83 registered members, 5 new members were added to the program, who are already participating in the activities carried out by the Seniors program.

4.4. TATIANA AND AMERICA PROJECT

In the 3rd Quarter of 2020, Condor Gold has strengthened its relationship with the indirect impact communities from America and Tatiana secondary projects: El Tanque, Talpetate, El Capulín and Quebrachal. These communities have been of interest to the company as it plans to develop two secondary mining projects located in San Juan and La Mestiza areas. These communities are the closest to them.

Likewise, activities in the communities were developed in the areas of health and education to contribute to the quality of life of their inhabitants and the participation of community leaders.

Due to the coronavirus pandemic, community social work has been focused on health and hygiene and specific activities have been carried out, maintaining a constant relationship with community leaders on a monthly basis.

The close relationship between Condor Gold and community leaders has led them to work hand in hand to contribute to improvement to people's quality of life within the communities, being

able to know the needs of the communities and coordinate positive actions for their development.

The programs are focused on health, education, community leadership, contributions and donations, apostolate, and artisanal mining.

In this quarter, the programs have a community health approach to prevent pandemics and diseases, and reforestation. During rainy season, the rain is being used to water the trees, because the area is very dry during summer (dry corridor).

| Scope | Project Description | Total, Individuals Benefited | | | Month |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|----|----|-----------|
